Hire Catalogue 2014

Gehrmans is one of the leading music publishers of serious music in Scandinavia. Founded in 1893, Gehrmans repertoire includes most of the important Swedish composers.

This catalogue contains different works for orchestra and chamber ensemble listed in alphabetical order under each composer's name. All these works are available on hire through Gehrmans or Gehrmans's agent, as listed on the following pages.

Gehrmans has acquired orchestral catalogues of other publishers, such as Nordiska Musikförlaget. Under each title in this catalogue there is an abbreviation referring to the original publisher, as this may be useful to determine the agent.

This catalogue also contains stage works: opera and ballet.

Some materials (preferably scores) are available on sale, and they are indicated by a product number.

If you wish to place an order: please reserve the performance material you need well in advance so that we can guarantee prompt delivery. Please also specify the date(s) and place(s) of performance(s), details of any broadcast, as well as the names of the performers.

Instrumentation

Instrumentation is written as follows. The figures indicate the number of musicians required. Please note that number of percussionists required may differ.
